LASHES & BROWS

BROW LAMINATION & TINT 60 MINS 100

Brow lamination will give your brows a uniform, fuller shape, making it the ultimate solution for eyebrows lacking symmetry. With lamination, we can realign the hairs following a different pattern, giving them the desired shape you want. Our treatment solves the messy brow issue, creating volume and fullness while giving you a sleek, well-kept shape for up to 2 months. With a new protein composition based on liquid keratin and silicone, we can also encourage brow growth by creating a protective balm around the hair.

By straightening your natural lashes at the root and then tinting them, the LVL Lash Lift give you the appearance of longer, thicker lashes.
